PROFILE

Full-stack JavaScript/TypeScript developer and Product Builder with an IT career starting in 2016, including 7 years of IT systems ownership. Since 2024, I have designed and built automotive web applications: scoping, user journeys, architecture, development and operations. My experience connects business requirements, technical delivery and user support.

FEATURED PRODUCT

BonneOccaz.frBeta product

An automotive marketplace for searching, publishing and comparing listings, enhanced with decision tools, professional workflows, an AI automotive advisor and a platform help assistant.

- AI advisor: identify needs and find a vehicle on the platform
- RAG/CAG assistance: internal FAQ and Pro guide, without access to personal data
- Listings, favourites, messaging and moderation
- Price indicator, ownership cost and tax estimation
- Consumer and professional account experiences

EXPERIENCE

Product Builder / Full-stack developer2024 - PresentIndependent automotive products

Two automotive web applications developed independently, including BonneOccaz. The second project remains confidential at this stage.

Projects started alongside my role at Normandie Structures in 2024-2025.

- Scoping and rapidly building demonstrable MVPs: requirements, product discovery, user journeys, backlog management and prioritisation
- Responsive full-stack development with React, Next.js, TypeScript, Node.js and Tailwind CSS
- Supabase/PostgreSQL architecture: data modelling, Auth, Storage, RLS, Realtime and REST APIs
- Third-party integrations and transactional email with Resend, Git/GitHub, CI/CD and Vercel deployment
- Maintaining and evolving production applications, with AI tools supporting development

IT Manager2018 - 2025Normandie Structures · Normandy, France

Autonomous ownership of information systems, technical projects and business technology needs.

- Auditing and managing IT assets, software, networks and business applications
- Requirements gathering and analysis, solution selection, deployment and maintenance
- User support, incident management, training and change enablement
- Project delivery, vendor coordination and technical operations
- Building the company website and using RFEM/RWIND for preliminary design

Apprentice Project Manager2016 - 2018Renault Cléon · Cléon, France

Built two business applications in an industrial environment.

- ASP.NET MVC application for new-vehicle parking management
- PHP inventory and tooling application using QR codes
- Designed and operated MySQL and SQL Server databases
- Requirements gathering, functional specifications, development, testing and Agile delivery

SKILLS

FRONTEND & PRODUCT

React · Next.js · TypeScript · JavaScript · HTML5 / CSS3 · Tailwind CSS · Responsive Design · UX · Product discovery · MVP scoping · Rapid prototyping

BACKEND & DATA

Node.js · Supabase · PostgreSQL · SQL · REST APIs · Auth · Storage · RLS · Realtime · Data modelling

DELIVERY & AI

Git / GitHub · CI/CD · Vercel · Resend · Functional testing · RAG · CAG · AI-assisted development

SYSTEMS & COLLABORATION

IT strategy · Project Management · Business analysis · Requirements gathering · User support · Training · Vendor coordination · Agile / Scrum

PRODUCT LOOP

Understand -> Design -> Build -> Ship -> Learn

Featured product · BonneOccaz, in beta

EDUCATION

Level 6 RNCP - Software Engineering Manager

CESI, Rouen · 2018

BTS SIO - SLAM software track

La Châtaigneraie, Mesnil-Esnard · 2016

TARGET ROLES

- Product Builder
- Full-Stack JS/TS Developer
- Product Engineer
- React / Next.js Developer
