

PROFILE

Product Builder and full-stack JavaScript/TypeScript developer with 10+ years in IT, including 7 years of IT systems ownership. Since 2024, I have turned business needs into demonstrable MVPs and then into automotive web products shipped end to end: discovery, UX, architecture, development, deployment and operations. I recently added a focused RAG/CAG module to BonneOccaz to improve the automotive advisor's contextual answers.

FEATURED PRODUCT

BonneOccaz.fr Beta product

An automotive marketplace for searching, publishing and comparing listings, enhanced with decision tools, professional workflows and a contextual automotive advisor.

- AI-assisted search and automotive advisor
- RAG/CAG module to ground answers in a focused automotive knowledge corpus
- Listings, favourites, messaging and moderation
- Price indicator, ownership cost and tax estimation
- Consumer and professional account experiences

EXPERIENCE

Product Builder / Full-stack developer 2024 - Present
Independent automotive products

Rapidly designing demonstrable MVPs and independently taking two automotive web applications to production, including a SaaS marketplace.

- Scoping and rapidly building demonstrable MVPs: requirements, product discovery, user journeys, backlog management and prioritisation
- Responsive full-stack development with React, Next.js, TypeScript, Node.js and Tailwind CSS
- Supabase/PostgreSQL architecture: data modelling, Auth, Storage, RLS, Realtime and REST APIs
- Third-party integrations and transactional email with Resend, Git/GitHub, CI/CD and Vercel deployment
- Production maintenance, daily AI-assisted development and a focused RAG/CAG module for BonneOccaz

IT Manager 2018 - 2025
Normandie Structures · Normandy, France

Autonomous ownership of information systems, technical projects and business technology needs.

- Auditing and managing IT assets, software, networks and business applications
- Requirements gathering and analysis, solution selection, deployment and maintenance
- User support, incident management, training and change enablement
- Project delivery, vendor coordination and technical operations
- Building the company website and using RFEM/RWIND for preliminary design

Apprentice Project Manager 2016 - 2018
Renault Cléon · Cléon, France

Built two business applications in an industrial environment.

- ASP.NET MVC application for new-vehicle parking management
- PHP inventory and tooling application using QR codes
- Designed and operated MySQL and SQL Server databases
- Requirements gathering, functional specifications, development, testing and Agile delivery

SKILLS

FRONTEND & PRODUCT

React · Next.js · TypeScript · JavaScript · HTML5 / CSS3 · Tailwind CSS · Responsive Design · UX · Product discovery · MVP scoping · Rapid prototyping

BACKEND & DATA

Node.js · Supabase · PostgreSQL · SQL · REST APIs · Auth · Storage · RLS · Realtime · Data modelling

DELIVERY & AI

Git / GitHub · CI/CD · Vercel · Resend · Functional testing · RAG · CAG · AI-assisted development

SYSTEMS & COLLABORATION

IT strategy · Project Management · Business analysis · Requirements gathering · User support · Training · Vendor coordination · Agile / Scrum

PRODUCT LOOP

Understand -> Design -> Build -> Ship -> Learn

Latest build · RAG/CAG module for BonneOccaz

EDUCATION

Level 6 RNCP - Software Engineering Manager

CESI, Rouen · 2018

BTS SIO - SLAM software track

La Châtaigneraie, Mesnil-Esnard · 2016

TARGET ROLES

- Product Builder
- Full-Stack JS/TS Developer
- Product Engineer
- React / Next.js Developer
