

Bryan DUPRESSOIR

Full-Stack Developer & Product Engineer

Next.js · React · TypeScript · Supabase

bryandupressoir@live.fr

06 17 81 61 32

Vandrimare, Normandie

PROFILE

Full-stack developer and product builder with 10+ years in IT. Since 2024, I have been designing two automotive products end to end: product strategy, UX, architecture, development, production and maintenance.

FEATURED PRODUCT

BonneOccaz.fr Beta product

An automotive marketplace for searching, publishing and comparing listings, enhanced with decision tools and professional workflows.

- AI-assisted quick search and automotive advisor
- Listings, favourites, messaging and moderation
- Price indicator, ownership cost and tax estimation
- Consumer, professional and editorial experiences

EXPERIENCE

Full-stack developer / Product Builder 2024 - Present

Independent automotive products

Independently designing two automotive applications from idea to production.

- Defining journeys, requirements, priorities and product decisions
- Responsive development with Next.js, React, TypeScript and Tailwind CSS
- Supabase/PostgreSQL architecture: Auth, Storage, RLS, Realtime and APIs
- Transactional email with Resend, Vercel delivery and ongoing maintenance
- Integrating AI tools into both the product and development workflow

IT Manager 2018 - 2025

Normandie Structures · Normandy, France

Autonomous ownership of the information system and business technology needs.

- Auditing and managing workstations, software, networks and business solutions
- Analysing needs, selecting, deploying and maintaining solutions
- Supporting, training and guiding users day to day
- Coordinating projects, vendors and technical work
- Building the company website and using RFEM/RWIND for preliminary design

Apprentice Project Manager 2016 - 2018

Renault Cléon · Cléon, France

Built two business applications in an industrial environment.

- ASP.NET MVC application for new-vehicle parking management
- PHP inventory and tooling application using QR codes
- Designed and operated MySQL and SQL Server databases
- Requirements, specifications, development, testing and Agile delivery
