

Bryan DUPRESSOIR

Full-Stack JavaScript/TypeScript Developer & Product Engineer

React · Next.js · TypeScript · Node.js · Supabase/PostgreSQL

bryandupressoir@live.fr

06 17 81 61 32

Vandrimare, Normandie

PROFILE

Full-stack JavaScript/TypeScript Developer and Product Engineer with 10+ years in IT, including 7 years of IT systems ownership. Since 2024, I have designed and shipped two automotive web applications end to end: requirements, product, UX, architecture, development, deployment and maintenance.

FEATURED PRODUCT

BonneOccaz.fr Beta product

An automotive marketplace for searching, publishing and comparing listings, enhanced with decision tools and professional workflows.

- AI-assisted quick search and automotive advisor
- Listings, favourites, messaging and moderation
- Price indicator, ownership cost and tax estimation
- Consumer and professional account experiences

EXPERIENCE

Full-stack developer / Product Builder 2024 - Present

Independent automotive products

Independently designing and shipping two automotive web applications, including a SaaS marketplace.

- Requirements gathering, product discovery, user journeys, backlog management and prioritisation
- Responsive full-stack development with React, Next.js, TypeScript, Node.js and Tailwind CSS
- Supabase/PostgreSQL architecture: data modelling, Auth, Storage, RLS, Realtime and REST APIs
- Third-party integrations and transactional email with Resend, Git/GitHub, CI/CD and Vercel deployment
- Production maintenance and AI tooling integration across the product and development workflow

IT Manager 2018 - 2025

Normandie Structures · Normandy, France

Autonomous ownership of information systems, technical projects and business technology needs.

- Auditing and managing IT assets, software, networks and business applications
- Requirements gathering and analysis, solution selection, deployment and maintenance
- User support, incident management, training and change enablement
- Project delivery, vendor coordination and technical operations
- Building the company website and using RFEM/RWIND for preliminary design

Apprentice Project Manager 2016 - 2018

Renault Cléon · Cléon, France

Built two business applications in an industrial environment.

- ASP.NET MVC application for new-vehicle parking management
- PHP inventory and tooling application using QR codes
- Designed and operated MySQL and SQL Server databases
- Requirements gathering, functional specifications, development, testing and Agile delivery
