

PROFILE

Full-stack JS/TS developer with an IT career starting in 2016 and 7 years of IT systems ownership. Since 2024, I have built automotive products with AI from the outset. Extensive hands-on use of coding agents: scoping, project instructions, development, testing, review and delivery.

FEATURED PRODUCT

BonneOccaz.fr Beta product
An automotive marketplace for searching, publishing and comparing listings, enhanced with decision tools, professional workflows, an AI automotive advisor and a platform help assistant.

- AI advisor: identify needs and find a vehicle on the platform
- RAG/CAG assistance: internal corpus, validated citations, injection tests and public/Pro separation
- Listings, favourites, messaging and moderation
- Price indicator, ownership cost and tax estimation
- Consumer and professional account experiences

EXPERIENCE

Full Stack Builder / JS/TS Developer 2024 - Present
Independent automotive products
Two automotive web applications built with AI from the outset, including BonneOccaz. The second project remains confidential at this stage.

- Projects started alongside my role at Normandie Structures in 2024-2025.
- Product and MVP scoping: requirements, user journeys, backlog, specifications and project instructions for agents
 - Extensive agentic development: implementation, refactoring, testing and generated code review
 - Full-stack React, Next.js, TypeScript and Node.js; Supabase/PostgreSQL, REST APIs, Auth, RLS and Realtime
 - Directing AI-assisted audits and fixes: regressions, authentication, access control and performance
 - Git/GitHub, CI/CD, Vercel and Resend; delivery verification and production maintenance

IT Manager 2018 - 2025
Normandie Structures · Normandy, France
Autonomous ownership of information systems, technical projects and business technology needs.

- Auditing and managing IT assets, software, networks and business applications
- Requirements gathering and analysis, solution selection, deployment and maintenance
- User support, incident management, training and change enablement
- Project delivery, vendor coordination and technical operations
- Building the company website and using RFEM/RWIND for preliminary design

Apprentice Project Manager 2016 - 2018
Renault Cl  on · Cl  on, France
Built two business applications in an industrial environment.

- ASP.NET MVC application for new-vehicle parking management
- PHP inventory and tooling application using QR codes
- Designed and operated MySQL and SQL Server databases
- Requirements gathering, functional specifications, development, testing and Agile delivery

SKILLS

FRONTEND & PRODUCT
React · Next.js · TypeScript · JavaScript · HTML5 / CSS3 · Tailwind CSS · Responsive Design · UX · Product discovery · MVP scoping · Rapid prototyping

BACKEND & DATA
Node.js · Supabase · PostgreSQL · SQL · REST APIs · Auth · Storage · RLS · Realtime · Data modelling

AI AGENTS & DELIVERY
Coding agents · Generative AI · Project instructions · Testing & code review · Git / GitHub · CI/CD · Vercel · Resend · RAG / CAG

SYSTEMS & COLLABORATION
IT strategy · Project Management · Business analysis · Requirements gathering · User support · Training · Vendor coordination · Agile / Scrum

PRODUCT LOOP
Understand -> Design -> Build -> Ship -> Learn

Featured product · **BonneOccaz**, in beta

EDUCATION
Level 6 RNCP - Software Engineering Manager
CESI, Rouen · 2018

BTS SIO - SLAM software track
La Ch  taigneraie, Mesnil-Esnard · 2016

TARGET ROLES

- Full Stack Builder
- Full-Stack JS/TS Developer
- Product Engineer
- React / Next.js Developer
